

www.thortex.co.uk

Thortex has been advising the Food & Drink Industry for many years on all aspects of maintenance and protection for buildings, structures, machinery and equipment. Our range of food standard approved water based and solvent free products have proved the ideal hygienic solution to Food & Drink Industry requirements.

# How to avoid problems in Food & Drink production plants...

## PRODUCTION AREA FLOORS

Protect against the build up of dirt and contamination, slippery and dangerous floors, impact damage, rapid wear in high use areas and damage caused by regular intensive cleaning.

## GOODS IN / GOODS OUT

Protect against damage and wear to the floors and walls caused by vehicles, pallets, products and personnel in these very high use areas.

## ROOFS

Protect against water damage to internal areas, raw materials and products caused by leaking and damaged roofs.

## STAFF FACILITIES

Protect against slippery and dangerous surfaces, damage caused by impact and abrasion, transfer of dirt and contamination to production areas.

## HOLDING TANKS

Protect against corrosion of internal and external surfaces and contamination of the contents of each tank.

## PRODUCTION AREA WALLS

Protect against the growth of mould and harmful bacteria, impact and abrasion, damage caused by regular intensive cleaning.

## EXTERNAL WALLS

Protect against weathering and degradation, water penetration and deterioration due to constant exposure to the elements.

## PIPEWORK

Protect against punctures and tears, impact damage, unwanted heat transfer, leaks from the pipes and fire damage.

## LABORATORY AND RAW MATERIAL AREAS

Protect against damage to all internal surfaces, the growth of mould and bacteria, product and chemical spillages and impact damage.

## BUND AREAS

Protect against corrosion and erosion of internal and external surfaces, hazardous chemical spillages and leaks, explosions and chemical fires.

## The Thortex Solutions...

### Thortex products for the Food & Drink Industry include:

- ✓ Hygienic wall coatings
- ✓ Impact resistant wall coatings
- ✓ Hardwearing floor coatings
- ✓ Floor resurfacing screeds
- ✓ Safety surfacing systems
- ✓ Concrete repair materials
- ✓ Roof waterproofing coatings
- ✓ Corrosion protection systems
- ✓ Chemical protection systems
- ✓ Fire retardant coatings
- ✓ External wall protection coatings
- ✓ Insulation materials
- ✓ Engineering repair products

Thortex Solutions: Food safe coatings and screeds which can be applied to most surfaces, which have outstanding impact and abrasion resistance, are very easy to clean and maintain, have excellent adhesion properties and are slip resistant. Products that meet USDA and FDA requirements and will not taint food or drink in production.

Thortex Solutions: Food safe coatings which are seamless, impervious, aseptic, mould and bacteria resistant, impact resistant and easy to clean. Products that meet USDA and FDA requirements and will not taint food or drink in production.

Thortex Solutions: A range of safety surfacing systems for floors which can withstand the severest and most intense use. Products designed for application even where very limited access and shutdown is available.

Thortex Solutions: Food safe coatings and screeds which are seamless, easy to clean and maintain and provide excellent slip resistance, even when wet. Superb impact and abrasion resistant properties.

Thortex Solutions: Clear and coloured waterproof and weatherproof coatings and repair products for external surfaces. Special coating systems for the total refurbishment of degraded plastisol sheeting.

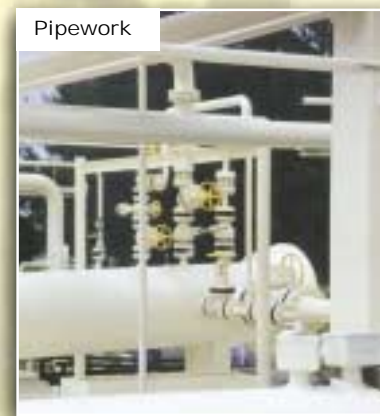

Thortex Solutions: Hygienic, hardwearing and impervious floor and wall finishes with excellent chemical resistance, impact and abrasion resistance.

Thortex Solutions: Waterproof and weatherproof coatings for all roof surfaces, giving protection for up to 20-25 years. Emergency waterproofing coatings which instantly stop leaks and can even be applied when raining.

Thortex Solutions: Specialist internal and external corrosion and chemical resistant linings with excellent abrasion and impact resistance. Ideal protection against most chemicals, even in permanent immersion conditions.

Thortex Solutions: Specialist coatings for the protection of internal or external pipework including flexible reinforced coatings designed to encapsulate and lag all types of thermal insulation materials. Superb protection against impact and abrasion damage.

Thortex Solutions: High performance coatings specifically developed to protect surfaces from most industrial chemical spillages and leaks. Excellent adhesion to most surfaces with good impact resistance.

### Solutions for the Food & Drink Industry

The Thortex range of protection systems provides food & drink companies with seamless, hygienic, easy to clean and maintain finishes for all surfaces. These products are manufactured using the latest solvent free and water based technology which means they are safe for use in critical areas such as production and will not taint or harm food and drink products.

Our commitment to the research & development of superior water based & solvent free systems has resulted in several national & international awards.

*These products are designed to perform well beyond the legislative requirements for the Food and Drink Industry, ensuring you receive the high level of protection you require.*

### Our Commitment to the Food and Drink Industry

Thortex provides a complete professional service for the Food & Drink Industry. We are available to visit any food and drink producer and advise on the use of our products for the protection of buildings, structures, machinery and equipment. We provide full working recommendations on the use of our products and give all required advice and support during their application. Our success in the Food & Drink Industry is based on the quality of our products and the high level of service that we provide.
